

Workshop event focus is on digitalization within mining industry and its ecosystems:

Value Mine

16th June 2022

For who: Supplier companies in the mining industry

Place: Folkparken, Skellefteå and **online**

When: Thursday, June 16, 09.00-17.00 (Swedish time)
10.00-18.00 (Finnish time)

Content of the day:

- Inspirational lecturer about the trends in increased digitalisation in the international mining industry.
- Company presentations from larger mining industry companies from Sweden and Finland. Company presentations small and medium sized industry and technology supplying companies from Sweden and Finland.
- Scheduled business matchmaking between mining industry and small and medium sized industry and technology companies.

During the workshop Mining industry companies needs are lifted and the possibilities are created for small and medium sized industry and technology companies to match those needs with value propositions. The day will bring possibilities and opportunities for creating business. Contacts and connections outside your own country borders. This is a side event to the fair Euro Mine Expo. Everyone who participates in Value Mine gives opportunity to participate in Euro Mine at a favourable price.
